

**DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING  
ACADEMIC YEAR (2018-2019) ODD SEMESTER  
THE INSTITUTION OF ELECTRONICS AND TELECOMMUNICATION ENGINEERS (IETE)  
IETE STUDENTS' FORUM (ISF)  
GUEST LECTURE - ACTIVITY REPORT**

The IETE students Forum (ISF) organized a Guest lecture on “**Embedded System Applications in Automobiles**” on 08.09.2018 for the IETE student members. Mr.T.Jeyaseelan AP/ECE, IETE Students’ Forum (ISF) coordinator coordinated the activity. The IETE student members have attended the Guest Lecture. Ms.Rubika (2009-2013), Design Engineer, Robert Bosch was the resource person.

Mrs.N.Mangaiyarkarasi , Asst.Professor,Academic coordinator / ECE honoring Ms.Rubika, Design Engineer, Robert Bosch Pvt. Ltd.

Ms. Rubika, Design Engineer, Robert Bosch delivering Guest lecture.

View of the participants (IETE student members)

The student interacted with the resource person during interaction session.

Ms.Rubika, in her lecture shared her field experience in bosch and their major products in the field of Embedded system. She explained the basic requirements of an embedded system, specifications & design of products for automobiles industry. She insisted that corporates prefer their own software development tools for the design and testing of products. Through the guest lecture, the students gained technical knowledge on embedded system applications in the field of Automobiles. The session was informative and the students were interactive and inspired.
